

Fair Housing Training

“It is not an option, it’s the Law!”

State and Federal law prohibits discrimination in housing based on race, color, creed, religion, national origin, ancestry, sex, marital status, disability or familial status.

Come and learn about:

- The seven protected classes
- Ways to market property, design leases and to provide services to promote Fair Housing
- The effects of Fair Housing on property access and use

The Colorado Division of Housing, in joint venture with the Affordable Housing Management Association (AHMA), is offering this exciting workshop. With 27 years of experience in the apartment home industry, Presenter Jeff Boyd will provide guidance through the various realms of Fair Housing.

July 29, 2008
