

## Paper-light Conference

This will be the fourth year AHMA will initiate a paper-light conference effort. Did you know that the convention industry is the 2<sup>nd</sup> most wasteful industry? In our attempt to reduce the amount of paper we use at our conference Rocky AHMA will make available electronic program materials. These will replace paper and will be accessible online before and/or after the conference on the Rocky AHMA website. This is an effort to be responsible toward our environment.
